**Instructor:** Randall Gibson, M.Ed., LMT, RPP, CST has been presenting seminars on bodywork and energy healing across the country for over twenty years and has been on the faculty of the National Institute of Massotherapy in Akron since it was founded in 1991.

### **Craniosacral Therapy**

"In seventeen years of practice and continuing ed., I have never felt like I learned more and could go away practicing what I had learned."

*Candyce Steigerwald, PT (North Canton, Ohio)*

### **Energy Therapy**

"I'm amazed at how much Polarity Therapy has helped my massage practice! Treating common problems like shin splints using polarity contacts and reflexes, the tissues release much faster than with massage alone. I feel more grounded as a therapist."

*Jeff Zayda, LMT (Fairlawn, Ohio)*

### **Touch For Health Kinesiology**

I would recommend this course to others. (especially other P.T.s) Very useful, practical techniques.

*Darlene Noble, PT (Cuyahoga Falls, Ohio)*

### **The Top Ten Pain Releasers**

"The Top Ten Pain Releasers presents safe, effective techniques to relieve pain and promote the feeling of well-being in a format that is easy to use by the novice."

*Dr. John Thie, Founder of Touch For Health*
